Advice on How to Deworm Cats - wikiHow - The first fossilized evidence of sexual reproduction in eukaryotes is from the Stenian period, about 1 to 1.2 billion years ago.. Biologists studying evolution propose several explanations for why sexual reproduction developed and why it is maintained. These reasons include reducing the likelihood of the accumulation of deleterious mutations, increasing rate of adaptation to changing ...

Sexual reproduction - Wikipedia - A mild normochromic, normocytic anaemia is a common finding and usually a consequence of other diseases, including (1) anaemia of chronic disordersâ€™ associated with chronic infection, all forms of inflammatory diseases, and malignant disease; mechanism unknown but likely to involve multiple factors; typically leads to a reduction in the serum iron concentration with concurrent reduction in ...
